If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, the Company will permit such equipment to be connected with its channels without use of protective interface devices.

If the Subscriber fails to maintain the equipment and/or the system properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other subscribers, the Company may, upon written notice, require the use of protective equipment at the Subscriber's expense. 2.5 Cancellation or Interruption of Services (Cont'd)

2.5.3 Application of Credits for Interruptions of Service

For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption. For services with monthly recurring charges, credit is computed by multiplying the monthly recurring rate by the ratio that the number of hours in the period of interruption bears to 720 hours (30 days times 24 hours). The credit shall be based upon the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges. Credits for services billed on a usage basis will be determined as set forth above.

2.5.4 Cancellation by the Customer

The Customer may have service canceled upon written or verbal notice to the Company. The Customer shall pay the Company for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. The Company will restore services as soon as it can be provided without undue risk.
- B. For violation of law or this tariff: Except as provided elsewhere in this tariff, the Customer shall be subject to refusal, suspension or cancellation of service, without prior notice, for any violation of terms of this tariff, for any actual or apparent violation of any law, rule, regulation, order, decree or policy of any government authority of competent jurisdiction, or by reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Company from furnishing such service or prohibits Customer from subscribing to, using, or paying for such service.
- C. For the Company to comply with any order or request of any governmental authority having jurisdiction: The Customer shall be subject to refusal, suspension or cancellation of service, without prior notice, in order to permit the Company to comply with any order or request of any governmental authority having jurisdiction.

Any unauthorized or unlawful use of such numbers or Authorization Codes shall result in the immediate refusal, suspension or cancellation of service without prior notice.
- E. The Company may refuse, suspend or cancel service immediately and without prior notice in the event of excessive network usage which is determined to be fraudulent or beyond the Customer's demonstrated ability to pay.
- F. Without prior notice in the event of Customer or Customer's authorized user use of equipment in such a manner as to adversely affect the Company's facilities and/or equipment or service to others.

- B. For nonpayment: The Company, by written notice to the Customer and in accordance with applicable law, may refuse, suspend or cancel service without incurring any liability when there is an unpaid balance for service that is more than 30 days overdue. If objection is not received by the Company within six months after the bill is rendered, the items and charges appearing thereon shall be determined to be correct and binding upon the customer.
- 2.7.3 The Company may impose a late payment charge not to exceed 1.5% on amounts due not paid by the due date on the invoice. Charges may only be assessed on outstanding balances. In particular and without limitation of the foregoing, the Customer is responsible for payment of rates and charges for any calls placed by or through the Customer's equipment via any remote access features.

2.7.6 The Company reserves the right to examine the credit record or other available external sources of credit of an applicant or Customer. The Customer whose service has been disconnected for nonpayment of bills shall be required to pay any unpaid balance due to the Company before service is restored, and a deposit may be required.

2.8 Validation of Credit

The Company reserves the right to validate the credit worthiness of Subscribers or Users.

2.9 Contested Charges

All bills are presumed accurate, and shall be absolutely binding on the Subscriber unless objection is received by the Company within thirty (30) days after such bills are rendered. In the case of a billing dispute between the Subscriber and the Company for service furnished to the Subscriber, which cannot be settled with mutual satisfaction, the Subscriber can take the following course of action within thirty (30) days of the billing date:

2.9.1 The Subscriber may request, and the Company will provide, an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service may be subject to disconnect.)

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.9 Contested Charges (Cont'd)

2.9.2 If there is still a disagreement about the disputed amount after the investigation and review by a manager of the Company, the Subscriber may file an appropriate complaint with the Pennsylvania Public Utility Commission. The Commission's address is:

Pennsylvania Public Utility Commission
PO Box 3265
Harrisburg, Pennsylvania 17105-3265

2.10 Billing Entity Conditions

When billing functions on behalf of the Company are performed by local exchange telephone companies, or others, the payment conditions and regulations of such companies apply, including any applicable interest and/or late payment charge conditions.

2.11 Deposits

2.11.1 The Company may require from any Customer or prospective Customer a deposit to be held as a guarantee for the payment of charges in accordance with the rules and regulations of the Commission. Any applicant who is either not a previous Customer having established a prompt payment record or whose credit record is not satisfactory may be required to pay a deposit. In its calculation of a Customers' creditworthiness, the Company will use trading banking references, credit reports, and any other information pertinent to a Customers' credit. Any deposit required shall be confirmed in writing to the Customer no later than the time of the next billing.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.11 Deposits (Cont'd)

2.11.2 The amount of the deposit shall be in accordance with Commission regulations and shall not be more than two (2) months of usage of Carrier's services for any specific Customer. The amount of such usage may be estimated from past usage, the Customer's estimated anticipated usage, or the Company's average usage considering type and nature of service. The amount of deposit may exceed this total when services are provided for shorter periods of time or special occasions, and will not exceed an amount equal to two months charges. Interest on deposits held for thirty days or more will be paid at a rate as permitted under Commission rules.

2.11.3 A deposit shall be returned: 1) when an application for service has been canceled prior to the establishment of service; or 2) at the end of twelve (12) consecutive months of a satisfactory credit history; or 3) upon discontinuation of service. The Company shall apply the deposit against any outstanding balances due. If a credit balance exists after such application, the Company shall refund the balance to the Customer.

2.11.4 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

2.12 Restoration of Service

If service has been refused, suspended or canceled for nonpayment or as otherwise provided herein and the Customer wishes it continued, service shall, at the Company's discretion, be restored when all past due amounts are paid or the event giving rise to the refusal, suspension, or cancellation (if other than nonpayment) is corrected.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.13 Telephone Surcharges/Taxes/Contributions

In addition to the rates and charges applicable according to the rules and regulations of this tariff, various surcharges and taxes may apply to charges incurred by and billed to the customer on the monthly billing statement. The Customer is responsible for payment of any fees (including franchise and right-of-way fees), charges, surcharges, contributions and taxes (however designated) (including without limitation: universal service contributions, telephone relay service contributions, sales, use, gross receipts, excise, access or other taxes but excluding taxes on the Company's net income) imposed by any local, state, or federal government on or based upon the provision, sale or use of the Company's services. Fees, charges, and taxes imposed by a city, county, or other political subdivision will be collected only from those Customers receiving service within the boundaries of that subdivision.

2.14 Minimum Call Completion Rate

The Company will ensure an industry standard call completion rate.

2.15 Promotions

The Company may from time to time offer promotional services.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.16 Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), unless otherwise stated in this tariff, an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone. Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol). Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

SECTION 3 - DESCRIPTION OF SERVICES

3.1 General

The Company provides interexchange telecommunications services, including direct-dialed message telecommunications services, 800/888/877 service and calling card service. Call plans are generally rated based on the duration of the call. Services are available twenty-four (24) hours a day, seven (7) days a week.

3.2 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call.

3.2.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.

3.2.2 Chargeable time for all station-to-station calls begins when connection is established between calling party and the called party and ends when the calling party hangs up thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network, or by an operator.

3.2.3 Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.

3.2.4 Following the minimum call duration, calls are measured and billed in six second increments on a per call basis, unless otherwise indicated in this tariff. Fractional billing increments are rounded to the next full six second increment.

3.2.5 No charges apply to incomplete calls. An incomplete call is a station call in which the called station does not answer, or a person-to-person call in which the station does not answer or the requested person is unavailable, or a collect call for which the called party refuses to accept the charges.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Timing of Calls (cont'd)

3.2.6 Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded up to the nearest penny.

3.3 Outbound Station-to-Station Calling Plans

All product descriptions discussed below will generally be available to both residential and business customers, although the rates may differ between these two subscriber classes.

3.3.1 Fixed Rate-Per-Minute Plan

Customers may be charged two rate components: (1) a per line monthly recurring charge (MRC); and (2) a fixed rate-per-minute on every call. There are no monthly minimum requirements.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.3 Outbound Station-to-Station Calling Plans (cont'd)

3.3.2 Bundled Service Plans

Residential and Business customers who have chosen Hancock Long Distance as their primary Interexchange carrier for both Inter and IntraLATA service and have Hancock Telephone Company as their designated local service provider are eligible for the Bundled Packages. Package subscribers must also subscribe to the corresponding Bundled Package offered by Hancock Telephone Company.

A. Bundled Block-of-Minute Plans

The Bundled Block-of-Minute Plans enable customers to purchase a specified Block of long-distance minutes for a fixed MRC. Minute volumes which exceed the Block will be charged on a measured basis. The Customer will be billed the MRC at the beginning of each bill month. No portion of the MRC is returned to the Customer for any "unused" Block minutes during the bill month. Measured Charges, which are assessed to Customer minutes which exceed the block will be applied to the Customer's next monthly bill. For Customers with more than three lines presubscribed to the Company's service, the long-distance minutes associated with the selected Bundled Block-of-Minute Plan will apply, in aggregate, to groups of three lines which are billed on a single bill to a single main bill number. For Customers with more than three access lines to receive the tariffed rates for the Company's service, it shall be necessary only that the Customer purchases the complete Bundle of services on at least one line of the group of three. This condition applies to all lines which are billed on a single bill to a single main bill number.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.4 Calling Card Service

Calling Card Service is available to Residential and Business Customers for originating telephone calls. Service is accessed by dialing a Company-designated access number. In those instances when a Customer places a jurisdictionally local call using this service by dialing the long-distance access method described above, the call will be carried by the Company and charged at the rates listed herein and according to the terms and conditions of this tariff. Calling card Service is offered to Customers with lines presubscribed to the Company's service.

3.5 Operator Services

Operator Services allow Customers to place calls using operator assistance for call completion. Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. Operator services may be used by a customer to complete Operator Station, Person-to-Person, Collect, and/or Calling Card calls. Charges for Operator-Assisted calls include two components: a usage-sensitive component and a fixed per-call service charge based upon the type of operator service provided.

3.6 Toll Free Service

Toll Free Service provides for the termination of in-bound toll free 800/877/800 calls to a one-party exchange access line or to dedicated access facilities. The Customer is responsible for payment of all charges associated with such terminating calls terminated rather than the calling party. Calls to the Customer's Toll Free Service number can originate from all intrastate locations, including locations that are jurisdictionally local to the originating exchange. Charges are assessed primarily on a Measured Charge basis. Additional charges for specialized features and nonrecurring services also apply.

3.7 Directory Assistance Service

Customers may obtain assistance in determining telephone numbers by dialing 1-NPA-NXX-XXXX. Charges for Directory Assistance are assessed on a per-call basis.
