SUMMER STORM SAFETY

Lightning can strike from 10 miles away. If you hear thunder, lightning is close enough to pose a threat.

Inside is best. Stay away from windows, doors, & things that conduct electricity such as corded phones, wiring, plumbing, & anything connected to the house.

If caught outside with no safe shelter nearby:

- Never shelter under an isolated tree, tower or utility pole. Lightning tends to strike the taller objects in an area.
- Immediately get off of elevated areas such as hills, mountain ridges, or peaks.
- Immediately get out of and away from ponds, lakes, & other bodies of water.
- Never lay flat on the ground.

The best way to protect yourself against lightning injury or death is to monitor the weather & postpone or cancel outdoor activities when thunderstorms are in the forecast.

When Thunder Roars, Go Indoors!

HAPPY INDEPENDENCE DAY

CALL "811" BEFORE YOU DIG !!!

Any time you plan new construction and/or landscaping projects which require you to dig on your property, you must contact one of the following organizations two full days before you begin. Once they notify us, our employees will visit your worksite and mark the buried facilities.

In **New York** you'll be directed to: Dig Safely New York; www.digsafelynewyork.org

In **Pennsylvania** you'll be directed to: PA One Call System, Inc; www.paonecall.org

In addition to damaging buried electric lines, other facilities such as internet, cable television, and telephone may be accidentally cut during home improvement projects. Hundreds of customers could be left without electric or telephone service, or access to emergency service providers. There is also danger of personal injury, property damage and a large repair bill.

Please Remember:

- ♣ **Call 811 Before You Dig**
- ♣ **Wait the Required Time**
- ♣ **Confirm the Utility Response**
- ♣ **Respect the Marks**
- ♣ **Dig With Care**

21ST CENTURY COMMUNICATIONS AND VIDEO ACCESSIBILITY ACT (CVAA)

The Federal Communications Commission has implemented provisions of the Twenty-First Century Communications and Video Accessibility Act 2010 (CVAA) to ensure that people with disabilities have access to Advanced Communication Services (ACS). Providers of ACS and manufacturers of equipment used for ACS are required to make their products and services accessible to people with disabilities, unless it is not "achievable" to do so.

We are committed to ensuring our subscribers with disabilities (hearing, sight or speech impairment) are aware and have knowledge of these services available to them. We have forms and applications for these services at our business office, Mon - Fri 8am-4pm. You may also call 607-637-9911 for information.
